Model MO4S

The Ultimate 1S Alarm is ten alarms in one. A choice of 8 single sounds or random 8 sounds designed to prevent "auditory accommodation", only one of which is activated each time the alarm is triggered. Situated on the side of the alarm is a three way selection switch for sound/s with vibration, sound/s only or vibration only. This makes it suitable for, day time use, for the deaf or hard of hearing as well as for private and discreet usage to avoid disturbing others at home or away.
